seeleyinternational.com/cmsi

*Breezair has the highest cooling capacity (kW), based on test results of all major brands of evaporative air conditioner, performed by the NATA accredited Meridian Test Laboratory, to the requirements of the Australian Standard AS2913-2000 Evaporative Air Conditioning Equipment. All Seeley International air conditioner filters have smaller flutes than any other supplier of filter mediums, resulting in improved kW's of cooling. [^]Through participating dealers only on purchases of EXS and EXQ evaporative air conditioners, for a limited period. See seeleyinternational.com/promotions for full terms and conditions.
